

COMPANY PROFILE

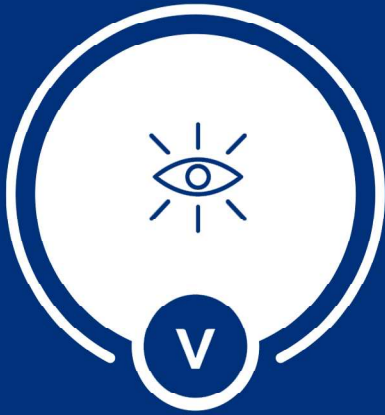

CLADDING INVESTMENT

Overview

Cladding Investments is a construction and infrastructure solutions company focused on delivering high-quality building and rehabilitation services. The company specializes in modern cladding systems and essential construction works tailored to institutional and commercial environments.

About Company

Established in 2012 as INCH Modern Technology, the company rebranded to **Cladding Investment Limited** in 2019 following its expansion into science laboratory construction and installations for schools and colleges. Key projects include laboratory construction at **Don Bosco Secondary School** (2012) and **Chibombo Day Secondary School** (2014), system installations at **Mufulira College of Education** (2016), rehabilitation works at **Kafue Boys Secondary School** (2018) and **Fairmount Hotel** (2019), boiler upgrades at **Kankoyo Breweries** (2021), and laboratory construction and full system installations at **Kansenshi Secondary School** (2023) and **Nsoke Secondary School** (2025).

Our Vision

To be the **leading** provider of cladding solutions in the region, recognized for **quality, reliability, and eco-conscious** practices that support community growth and development.

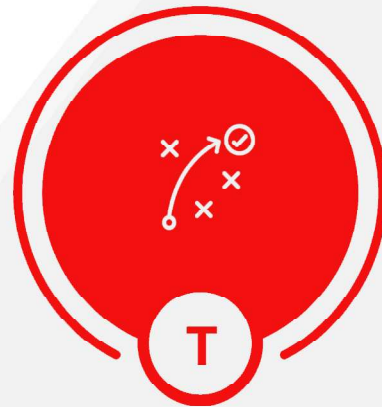

Our Mission

To deliver **modern, durable, and sustainable cladding solutions** that transform infrastructure across Zambia. *We aim to combine design innovation with practical functionality for long-lasting impact.*

Our Objectives

How **We Work**

Our proven process for successful project delivery

01 Consultation

We start with a detailed consultation to understand your requirements, assess the site, and discuss your vision for the project.

Our team creates detailed plans, material specifications, and timelines. We provide comprehensive quotes and project schedules.

02 Planning & Design

03 Execution

Professional installation with regular progress updates. We maintain strict quality control and safety standards throughout.

Final inspection, client approval, and handover. We provide ongoing support and maintenance services for your peace of mind.

04 Completion & Support

WHY SHOULD YOU CHOOSE US?

Cladding Investments is a trusted partner for sustainable, innovative, and high-quality construction solutions. We specialize in using eco-friendly materials that stand the test of time, ensuring projects are both durable and environmentally responsible. With expertise spanning diverse rehabilitation works, from science and computer labs to kitchens, plumbing, and electrical installations, we deliver precision and functionality across every project.

Guided by values of integrity, innovation, and excellence, Cladding Investments builds lasting trust through transparent communication and modern design approaches. Our highly trained teams guarantee safe, professional, and on-time installations, consistently exceeding expectations. By combining sustainability with craftsmanship, we are not just building structures; we are shaping a future where quality and responsibility go hand in hand.
